** Enter the NOLs used as positive numbers. Enter the income offset as negative numbers. Columns C and D total to zero in most cases. Exceptions are only if (1) carrybacks in Col D were previously carried back to years not in this worksheet or (2) carryovers from years not in this worksheet were used to adjust amounts in Col C. Example: 6th preceding year shows a carryover used which originated in the 7th preceding year that is not used in this computation.

*** Effective on January 1, 1992, Mississippi allows a 15 year carryover. NOLs from years prior to the law change are still subject to the 5 year carryover. Effective on January 1, 1998, Mississippi allows a 2 year carryback and 20 year carryover in accordance with Federal law. For tax year 2001 Mississippi follows federal carryback and carryover provisions in effect on December 31, 2000. For tax years beginning on or after January 1, 2002 Mississippi allows a 2 year carryback and a 20 year carryover. See Section 27-7-17(1)(l) for details.
